RED MEN ARE TO BUILD HOME FOR AGED AND DISABLED MEMBERS.

Driver Hurt—Man Married Third Time—Several Deaths—Two Birthday Parties.

Delaware, July 23.—From an authentic source it is learned that the Red Men of Ohio are considering Greenwood lake as location for home for aged and disabled members of the order. They contemplate erecting a building costing at an estimate \$250,000, and it is planned to later build an orphanage in connection with it.

The lake is one of the most picturesque parks in the state, and is a mecca for picnickers. A committee to decide the site will meet here on August 15.

Mr. Taylor was presented with a handsome Morris chair.

On Sunday the friends and relatives of Mrs. Ellen Taylor gathered at her home and gave her a surprise party, the event being in honor of her 80th birthday anniversary. The event was a very pleasant one.

Edw Stoneburner.

Lancaster, July 23.—Edw. Stoneburner, aged about 40 years, and an epileptic, wandered away from his home near this city and nothing was heard of him, so his relatives scoured the country, finding his body in a field some distance from home.

It was a horrible sight that met their gaze when they found him, as hogs had gotten to the dead man and had mutilated the body so that it was hardly recognizable.

The remains were taken home and the coroner summoned.

LIGHTNING STRIKES TWO RESIDENCES

REMARKABLE INCIDENT SAVES THE LIFE OF SON OF GEO. GROSHEN.

Child Happened to Be Taking Usual Nap at a Neighbor's When Bolt Strikes Its Bed.

During the severe electrical storm that passed over the city Monday at about 4:45 p. m., the lightning was very wild, but was particularly violent in the city in the neighborhood of Western avenue and Ninth street.

It acted in a very freakish manner. The bolt that was the most active, apparently struck Mrs. Kate Kammerer's house, 272 Church street, did no damage, but bounded off or split, going into Geo. Groshen's roof, knocked the plastering off the house, 60 Ninth street, by way of the ceiling in an upper room, then ran down an iron bedstead to the parlor and burned a large hole in the carpet.

The inmates thought that fire would certainly ensue as the smell of sulphur and smoke could be detected for some time after the shock. No one was shocked in this vicinity, but it was a lucky escape for Mr. Groshen's young son, for at the time of the shock the child usually takes a nap in the bedstead that was the conductor for the volatile element. The boy, happily, was visiting at Dr. P. H. Cosner's, a near neighbor.

On Western avenue, the residents were not so fortunate, for at 72 Western avenue, the little four year old daughter of Mr. and Mrs. Chas. Boss was severely shocked while at play on the porch of the residence.

The child came into the house and seemed to be out of her head, complaining of bugs bothering her, and otherwise acted in an unnatural manner.

Dr. Shirer was called and soon relieved her somewhat, and on Tuesday, while she is out of danger, she appears exhausted and has some fever.

The physician thinks she sustained quite a severe shock, and it may be some time before she fully recovers.

ANOTHER SHOCKED.

During a severe electrical storm in the northern part of the county, Mrs. Elizabeth Price, widow of the late John Price, was severely shocked by lightning and at first it was thought that she had been killed. The bolt struck a large tree near her house, and followed a telephone wire into the house. Mrs. Price was knocked down and rendered unconscious for a considerable length of time.

KILLED MAN

BECAUSE HE REFUSED TO FI- NANCE A PROPOSED REVOLUTION.

Rug Importer Slain in New York by Assassin Who Says He Is From Chicago.

New York, July 23.—While walking in Union square, H. S. Tavshanjian, a rug importer, who is said to have been a commissioner for Persia at the world's fair at Chicago, was shot and instantly killed. The assassin, who approached him from the rear and shot him without warning, was pursued by bystanders for several blocks and turned and wounded one of them with a shot from his revolver. He was overtaken and arrested. One of Tavshanjian's employees said the assassin had been trying to extort money from the merchant to be used to finance an Armenian revolution. The man who was arrested told the police his name is Beros Hampartzoumian of Chicago.

The police say he declared that he killed the man to save his country. It was reported that Tavshanjian gave the police information about the murder two months ago of Father Kasper, the Armenian priest, whose body was found in a trunk, and that he may have been killed in revenge for so doing.

MONUMENT ATTRACTS ATTENTION.

In the old cemetery in Springfield, Mass., there is a monument which attracts the attention of every visitor. It is in the shape of a house, and stands on the lot of a real estate dealer, Andrew Titus, who died a decade ago. The monument was erected several years before his death and gave the impression that he was thriftily advertising his business. The

monument is of marble, with brown stone front steps. On the tiny door is the name plate "Titus," exactly as on a real house. Over the door is a niche with an over time held a handsome bronze image, but this was removed two or three years ago. Across the front of the house are the carved words "In mansions above." There are miniature windows and at one side is a shapely tower.

The X-Ray Physicians

Now at Hotel Doty, Newark

Owing to the fact that we were unable to accommodate the crowds of afflicted people who called on the three days advertised, the X-Ray Doctors have consented to remain at the Hotel Doty until 8 o'clock Saturday evening, July 27. Every afflicted man and woman is invited to call and find out the real cause of their suffering, and what the real disease is. Consultation and advice free. Office hours, daily 9 am to 8 pm.

Our Original and exclusive treatment for Chronic and Pelvic Diseases of Men and Women has been proven successful in numbers of instances where success had seemed impossible before. Information that is of vital importance to every sufferer. How can they be cured without experimenting?

Doctors Wanted to Cut Open His Stomach

Samuel Slack, North Amherst, O., says: "About five months ago I went to the well to get a drink of water, and as I had almost drunk a glass empty, I swallowed something, and whether it was alive or some solid substance, I do not know, but it caused me lots of pain and agony, and I suffered a great deal with it. The pain would start with sort of stomach ache, and then I would get cramps, and it went so far that it would affect my heart, and I was getting worse all the time. In fact, I could hardly bear the weight of my hand on my stomach. One doctor told me that the only thing to do was to operate on me, cut my stomach open. A friend of mine was looking at the newspaper and he saw the X-Ray Medical Institute of Cleveland, was examining people free of charge and asked me why I did not go and try them, and I thought I would, and received wonderful results right from the start. The first time I went down they examined me with that wonderful machine called the X-Ray, and found out where the trouble was, and then gave me treatment, which is something great and different from any other treatment I had ever heard of, and I have been getting better ever since the very start, and I believe in a few weeks I will be as well as ever. My advice to anyone troubled with their stomach, heart, lungs or anything else is just give them a trial, and you will not be sorry. I recommend them very highly to anyone."

The most discriminating person can find no fault without ORIGINAL and EXCLUSIVE methods of combating Chronic and Pelvic Diseases of Men and Women, AND WERE YOU TO LOOK THE WHOLE WORLD OVER YOU COULD FIND NO BETTER. The superiority of our Men and Women has been proven in so many instances that it is not worth while to look elsewhere when you want value received for expenditure of time and money. The reason for this is that our experience does away with guesswork about it. The experimental stage was passed many years ago, and the treatment of TODAY is based upon indisputable and time-proven facts. In the treatment of each individual case we merely follow a beaten path over which we have traveled to success in so many similar cases before.

If you are in need of medical treatment at all you can afford the BEST, and when you get our treatment in the beginning you will save yourself much worry and a great disappointment. The BEST is the most economical, as it will cost you no more than you will be asked to pay for the quick kind.

BLOOD POISON CURED

Blood Poison, Sores, Ulcers, Skin Diseases, Blotches, Scrofula and all impurities of the blood cured to stay cured. Our treatment reorganizes the blood corpuscles and every particle of poison is eliminated from the system forever. Under our treatment it is utterly impossible for poison to remain in the blood, and purity and health are the results. If you are conscious of the poison lying dormant in your system, ready to break forth on the slightest provocation, come to us. Every manifestation of the disease disappears and our patients are astounded and marvel at the quick results.

Lung & Throat Diseases

Mrs. Jas. Keenan says: "I was under treatment with different doctors for nearly two years, who treated me for throat, lung trouble and tumors, and other diseases, without any benefit. Was steadily growing worse. I was examined by the X-Ray doctors, who told me that I had spinal trouble also. They gave me treatment, and now after only six weeks I am nearly well. I was suffering terribly with pains through my chest and back; was very nervous, and had not been able to sleep on my back or right side for more than a year. Was completely prostrated and could not do my housework. I was in despair. The first treatment I received made me better, and I have steadily improved since. So that I can easily do my work and can sleep as good as ever. I would be pleased to have anyone call at my residence to verify this statement."

Suffered Many Years

Eyesight
Examinations

Mrs. Jno. W. Smith, says: "I have been ailing for a number of years with pains in back of my head, and also spinal affliction, and I have doctored with the best physicians of this city, and also of eastern cities—but they failed to help me. They would relieve the pains for a while and that was all. Reading of the many cures accomplished by the X-Ray Physicians I decided to try their treatment. The result is I have had nine treatments and I am improving right along, and in a short time I will be a well woman again. This is what I can say for the X-Ray Institute."

THE COMMITTEE SETTLES DISPUTE IN TWO COUNTIES

AND NAMES ARE CERTIFIED TO SECRETARY OF STATE C. A. THOMPSON.

Domestic Tragedy at Sandusky—Harmon Will Speak at Jamestown—Ohio News.

Columbus, O., July 23.—By unanimous vote the Democratic state central committee recognized the Isbell faction as dominating the party in Summit county, and the Murphy faction is on top in Cuyahoga county. In the latter case the opposition failed to appear and Thomas E. Tietz, the Murphy nominee, was certified to Secretary of State Thompson for appointment as deputy state supervisor of elections. Similar action was taken in favor of Albert C. Holloway of Akron, but only after a fight for recognition had been made by W. E. Snyder, representing the faction which is led by S. G. Rogers, who is allied with Tom L. Johnson.

Won Wife; Kills Husband.
Steubenville, O., July 23.—Twenty years ago, at Brilliant, O., Edward R. Lockhart won away the wife of Pearce Davis, and after sensational scenes between the men she was divorced and married Lockhart. Bad blood has rankled between the men. For several years they have resided as near neighbors on small farms. Yesterday Lockhart, after some words, shot and killed Davis.

Strike of Ore Handlers.
Cleveland, O., July 23.—Following the strike of ore handlers at Duluth, Two Harbors and Superior, there has been nearly a total suspension of iron ore traffic on the Great Lakes. Only one vessel reached here with ore from the upper lakes during the past 24 hours. The furnaces are still operating, but the stocks of ore on hand are in most instances very small, and it is said some of the furnaces will be compelled to shut down for want of raw material in the very near future unless the strike is ended.

After the Barracks Band.
Columbus, O., July 23.—The musicians' union of Columbus has appealed to Secretary of War Taft to order the discontinuance of the free concerts which have been given recently in the statehouse grounds by the band at the United States barracks. The union, it is said, bases its protest on the ground that the barracks band is nonunion and that the free concerts divert the people from the parks, where union bands are employed.

Domestic Tragedy.
Sandusky, O., July 23.—Following a quarrel at the supper table, George Federick, 32, a turnkey at Central police station and prominent in city politics, shot his father, Andrew Federick, aged 58 years, and the latter is not expected to survive. It is stated that the father and son have been at odds for some time, and upon a renewal of their quarrel the latter fired four bullets into the body of the father.

Harmon Ohio Day Speaker.
Columbus, O., July 23.—Judson Harmon of Cincinnati, former attorney general of the United States under President Cleveland, was chosen as the orator for the Ohio day exercises at the Jamestown exposition, Sept. 11. Governor Harris will, the staff, the Second regiment, O. N. G., and probably the engineer corps of Cleveland, will participate in Ohio day celebration.

Bullet Through Head.
Toledo, O., July 23.—For no other apparent reason than the receipt of a letter from a sister chiding him for not coming home, Fred Winn, a Lake Shore brakeman, seated himself in a locker in his boarding house and shot himself in the mouth, the bullet coming out through the top of the head and lodging in the ceiling. He died instantly.

To Secure a Bond Issue.
Columbus Grove, O., July 23.—A mortgage for \$2,750.00, given by the Toledo & Lima Traction company to the Provident Life and Trust company of Philadelphia, has been filed in the office of Recorder Greiner at Ottawa. The mortgage was given to secure a bond issue to take up indebtedness and make improvements.

Dies After Chase.
Cincinnati, O., July 23.—James Wilson, colored, died of fright following an exciting chase and his arrest for shooting Charles Barlag, white. After the shooting Wilson was chased over half a mile by the police and a crowd of men who had witnessed the shooting. He was exhausted from his exertions and by the heat.

Lad Hangs Himself.
Van Wert, O., July 23.—James Morris, 15, son of George Morris, a Ridge township farmer, went home from Christian Endeavor meeting and hanged himself. His body was discovered hanging from a rafter at the barn by a brother. No cause can be assigned for the rash act. He was a home-loving boy.

Ground to Pieces.
Portsmouth, O., July 23.—John Garrett, a Norfolk & Western brakeman, fell beneath his train near Haverhill and was ground to pieces. He leaves a wife and three children residing in Portsmouth.

Standard Agent Held.
Akron, O., July 23.—A. J. Carling,

agent for the Standard Oil company at Barberton, was robbed of \$100 and beaten into insensibility by an unknown man. He is in a critical condition.

Lost His Life.
Davton, O., July 23.—Ethan Brewer, a young machinist, was drowned in Mad river while trying to recover an empty beer keg that had been tossed into the stream. He was a member of a picnic party.

HAYWOOD TRIAL

the murder of Governor Steunenberg, and for that reason general conspiracy was charged and all the events of the Colorado labor trouble were gone into. But, said Mr. Richardson, the conspiracy that the prosecution complains of is a lawful conspiracy. "If this be a conspiracy, then you are in a conspiracy if you are a Democrat and voted the Democratic ticket. The Federation of Miners was in a conspiracy to elect its men to office, to shorten hours and fix wages, and every one of those objects is lawful in this country."

Richardson charged that the independence depot explosion was the result of a plot by the mine owners to exterminate, root and branch, the Western Federation of Miners, who were trying to control wages and secure work for its members under proper conditions.

Orchard a Witness.
Boise, Ida., July 23.—The preliminary hearing of the case of Dr. J. T. McGee, one of the witnesses for the Haywood defense charged with perjury, came up and was continued. Orchard was on the stand for over an hour and was given a severe grilling in the cross-examination by McGee's counsel. The prisoner witness, however, maintained his characteristic calm throughout. He denied that he was in the Coeur d'Alene at the time McGee swore to a meeting with him at Wallace. C. W. Allen, the other witness for the defense who is under perjury charges, was bound over for trial in the district court.

VON BUELOW

SPEAKS HOPEFULLY OF THE RELATIONS BETWEEN FRANCE AND GERMANY.

French Newspapers Incensed Over Decision Not to Teach French in German Schools.

Paris, July 23.—The Figaro has published an interview with Prince Von Buelow, the German imperial chancellor, in which the German statesman speaks hopefully of the present status of the relations between France and Germany and says he believes that an understanding based on economy will be the ultimate outcome. Prince Von Buelow declares further that Germany does not seek colonial expansion and that she does not intend to oppose France in Morocco, where she asks only the open door for her commerce. In conclusion the German chancellor said: "I do not believe in the yellow peril. The Japanese are too wise and too serious-minded to think of menacing Europe, and I am convinced that the United States and Japan will arrange their differences without recourse to war."

French Incensed.
Paris, July 23.—The French newspapers are greatly incensed over the decision of the German authorities to suppress the teaching of French in the common schools of Alsace and Lorraine. The loss of the provinces, the status of which on the Place de la Concorde is forever kept fresh by flowers, is the sorest point in connection with the settlement of the Franco-Prussian war, and the decision to "Germanize" them by suppressing what is the native tongue for the vast majority of the population is gall and wormwood for the emotional French people.

The RAYMOND PIANO

"Nearest the Human Voice"

"Forewarned is Forearmed"

Recently a gentleman informed us that he had bought a piano about four years ago, paying nearly as much for it as we ask for the RAYMOND PIANO.

He wrote to the manufacturers in regard to replacing several worn parts, due entirely to poor material and workmanship and strictly in accordance with the terms of their five-year guarantee.

His letter was returned unopened by the post-office with the notation "no such firm in business." He was considerably surprised to find that he had bought a strictly commercial thump-box on which had been stenciled a fictitious name. He is going to buy a RAYMOND, now that he has been through our factory, heard the RAYMOND PIANO played and found that our ten-year guarantee is backed by 51 years' instrument building on one spot. His experience is but a repetition of many another. The piano he has now is not worth \$25.00, in fact we could not allow him anything for it, advising him to advertise it at private sale.

Our Piano Book, illustrated in colors, is a positive insurance against an equal mistake on your part. Free on request.

PULLS GUN—STARTS AFTER
CHARLEY WILSON, BUT IS
DISARMED.

Given Fine and Costs and Case Continued Without Prejudice—
Police News.

Georgia Nixon, not unknown to police fame, faced Mayor McCleary on a serious charge Tuesday, that of being drunk and disorderly and threatening to shoot Chas. Wilson, bartender at Jerry Baker's place on South Second street.

Georgia took on a comfortable load during the evening and started out looking for trouble. She went into Baker's place and pulled out a gun evidently with the intention of frightening Wilson, of whom she is enamored. She might have pulled the trigger at that, but her arm was struck by Thomas Woolles, who was standing near by and she was disarmed. She left and ran across the street to Roy Cole's place of business where she was found and arrested by the officers.

Georgia was fined \$5 and costs for being drunk, and the other charge was continued without prejudice. Mr. Wilson appeared and stated that he would not file charges against the

woman, all he asked was that she let him alone. She paid the fine and costs.

Ed. Target was again up for drunkenness and was given \$5 and costs. He told the mayor if he would only leave him off this time he would leave the city and not return for a year. His honor granted the request and Target said he would be out of the city in less than an hour's time.

Jesse Davis, who was up for indecent exposure of person, had his case continued until Wednesday morning at 9 o'clock, as did also E. O. Cooper who was arrested for raising a disturbance.

Chief Sheridan returned Monday evening from a ten days' trip. During his vacation he spent a great deal of time on the water enjoying the cool lake breezes and reports a most enjoyable time.

FRANCE'S PREMIER MAKES ASCENSION IN AN AIRSHIP

Paris, July 23.—Premier Clemenceau and Mon. Piquart, minister of war, made an ascension in the dirigible military balloon Patrie yesterday afternoon. The trip lasted two hours, and during a part of it at least there was some excitement about the airship. While over the dome of the Invalides, after having encircled the Eiffel tower, a water pipe burst and immediately the Premier was drenched with hot water, which, fortunately, however, was not hot enough to scald. No one was hurt by the accident, but the two ministers were considerably disconcerted by the mishap.

They were reassured eventually by the pilots of the airship as well as by the soundness of the airship itself, which the aeronauts coolly and systematically went about repairing. This occupied some twenty minutes while the Patrie floated in safety, and to the spectators watching below appeared to be uneventful.

The start of the airship was made at Veudon in the direction of Paris, and the return trip to Meudon was made by way of Issy and Les Moutiers. After reaching the solid ground again in both the Premier and the Minister of War declared that they enjoyed the trip very much and made light of the accident. Commenting on the voyage the Premier said:

"I was impressed with the feeling of security and stability. It was like standing on the deck of a warship."

Miller, receiver of the Newark Iron and Steel company vs. The Colonial Trust company, has been adjourned until Thursday morning at 9 o'clock, at which time further testimony will be taken on behalf of the cross petitioners, the Franklin Bank company and others. The controversy grows out of the distribution of the residue in the hands of the receiver, arising from the sale of the plant.

Campbell, of Ashland, his decisions in the following cases: Elias Davis and others against Sarah Bowers and others, judgment for the plaintiff, and injunction made perpetual. He asks that his interest be set off to him in severalty if the same can be done without manifest injury; if not that the premises be sold according to law and that partition be made. B. F. Suit for Divorce.
Jonah Stickie has filed his petition in the Probate court for divorce from his wife, Maggie Stickie. The parties were married December 25, 1898, and three children were born of the marriage, aged 7, 5 and 2 years. For cause of action plaintiff says that his wife has been guilty of extreme cruelty towards him; that she struck him with a wooden pole and also assaulted him with a cuspidor, that she accused him of the crime of fornication with Smythe & Smythe, attorneys for the plaintiff.

In Juvenile Court.
Tuesday in the Probate Juvenile court the case of the State of Ohio vs. Elmer J. Tonenberger and Peter Svolon was tried and decided. J. W. Honenberger, father of Elmer J. Honenberger, filed an affidavit claiming that Peter Svolon, proprietor of a public pool room on the south side of the public square, had contributed to the delinquency of Elmer J. Honenberger, a minor of 15 years, by permitting him to visit his pool room. Defendant appeared in court with his attorney, Chas. W. Montgomery and the testimony of quite a number of witnesses was heard. The court on hearing the evidence and the arguments of counsel found the defendant guilty and sentenced him to pay a fine of \$25 and costs and to stand committed until the fine and costs are paid. The defendant's attorney gave notice of exceptions, which were allowed. The court then administered a severe lecture to the boy and the other young minor witnesses who had testified that they had played pool in Svolon's pool room and warning them that a second offense would be punished severely. The Juvenile court is determined to break up as far as it can, the practice of young boys visiting and patronizing saloons and pool rooms.

CURIOUS SHOES WORN IN EGYPT.

This picture shows the prevailing style of footgear worn by Egyptians near the Nile. The leather sandals are exquisitely made and very comfortable, enabling the wearer to walk over small stones and rubble with little discomfort, and a reality are much more comfortable in the sole of a shoe. They are made in place by leather straps which cross the foot, a small strap separating the big toes from the others and holding the sandal in place. These shoes are always seen on the Bedouins of the desert,

A PETITION FOR SCHOOL DISTRICT

NEW SCHOOL HOUSE IS TO BE
LOCATED IN RICHLAND
TOWNSHIP.

Mrs. Sarah Cover's Death—Gas Line
Extension—Andy Helser Hit on
Head with Bottle.

Thorpville, O., (Beech Woods), July 23.—The patrons of Free Road and Bruno districts, Thorn township and Barbs, Woolard and Oakthorpe districts in Richland township will petition for the establishment of a school district made up of territory in the above districts. The petitioners will claim that their children are compelled to go through mud and snow for more than two miles and that pupils are unable to attend school during a large part of the school year. The school house will be located in Richland township.

As Andy Helser was driving between the rigs at Bruno Saturday evening, his buzzy looked on another of two fellows who had been drinking. They ordered him to keep his eyes open, to which he responded "Keep the road open." One fellow stood up and deliberately threw a quart beer bottle at Helser. He ducked, but the bottle struck him. The bottle was smashed. Helser has an ugly bruise on his head as a result.

The various gas companies have been busy stringing pipe through this section. It will be some time before the work will be completed. The terminus of the line has never been announced, but it is predicted the line will eventually go to West Virginia.

Mrs. Sarah Cover, an aged lady, died at her home Wednesday. She has been feeble for some time and was stricken with paralysis a few days before her death. The funeral services were held at Zion church on Friday. She was about 82 years of age and a member of the Reformed church. She leaves a husband, two children and two grandchildren and two great grandchildren.

The Bruno Epworth league gave an ice cream social at the M. E. church lawn at that place Saturday evening.

William Winegardner spent Sunday with his brother, Frank Winegardner in Newark.

Miss Arabella Woolard after a few days' visit here at her home, returned to her work in Columbus.

Present indications thus far point to an open summer—for umbrellas.

BASEBALL NEWS

TODAY'S GAME

At the end of the fifth inning the score was Newark 1, Sharon 0. Stoupe is pitching for Newark while Pearce is receiving. Malarkey is hurrying for Sharon, while Matteson is taking them off the bat.

by Capt. Berryhill, who made a fine address, telling "Sandy" that he was about to make the hit of his life and one that he would never regret. Capt. Bob was quite eloquent and is just as good postprandial orator as he is a ball player.

Dr. A. T. Speer, one of the club directors, was called upon next and made a witty speech interjecting some good advice to the prospective groom which he has promised to follow.

Sam Havil, Al Schweitzer, Irvy Warden, Lefty Snyder and Frank Cygi followed with appropriate remarks all wishing their old comrade all kinds of happiness, health and prosperity.

Joe Moser was called upon and proved himself to be a second Demosthenes. He assured the players that the leader of the German band would always be on hand to help the team and extend his best wishes and congratulations to the soon-to-be groom.

Dr. Abbott gave his team mate a few pointers, having gone through the mill himself, assuring him that he would never regret the step he was about to take and advising the youngsters of the team, who are still enjoying single blessedness, to go and do likewise.

Pitchers Joe and Joe, Locke and Stoupe, stated that they were too bashful to make a speech, but we cannot agree with them for they related a number of amusing stories as did also Jack Lake, the ground keeper.

Secretary W. B. Hopkins next addressed the banquet and his friend Alexander in particular, telling him a few things that he thought he ought to know. Mr. Hopkins related several little anecdotes and closed by stating that he hoped there were several more prospective candidates for the matrimonial altar in sight.

"Bunny" Pearce, the man behind the gun, and who will stand up with his old school mate and chum at the wedding ceremony tomorrow night, next told what he didn't know about matrimony. He said that some day he might be in a position to tell them what he did know about it.

Ed Asher, Laddy Linke, Pitcher Pannabaker and W. J. Smith were also present and made a few remarks, wishing Mr. Murray the best of luck, long life and happiness.

Mr. Murray closed the festivities of the evening by stating that he was going to be good and give the team all that was in him and help to try and bring the pennant home to one of the best little cities in the country.

After extending felicitations to their host the guests departed, all complimenting Mr. Murray on the splendid time which he had shown them.

M'GOVERN WILL GO INTO BUSINESS
Terry McGovern is to return from a sanitarium and go into business with his father-in-law in Brooklyn. Three months of rest and care have made a new man of Terry. He says that he will never fight again, and he says it with a sigh. He still hankers after the game in which he made such a great name for himself. He has downed his old enemy, booze, and is firm against all temptations.

JOHN L. SULLIVAN TO TOUR COUNTRY

John L. Sullivan and Jake Kilrain, the two rival gladiators of long ago, are to double up and travel, touring the country in a one act sketch, illustrating the blows and different happenings of their great fight of July 8, 1889. They should prove a good drawing card, for Mr. John L. Sullivan is still first in the hearts of his countrymen.

Umpire Hart announced at 3:40 o'clock that the game was postponed, and that a double header would be played this afternoon, the first game to be called at 2:15 o'clock. Either Asher or Linke will probably go on the mound for the Molders in the first game.

The postponement gave the boys of both teams a chance to rest up and good work can be expected this afternoon, when they clash for supremacy.

The second game of the present Sharon-Newark series, which was to have been played at Wehrle Park on Monday afternoon, had to be postponed until this afternoon on account of the rain having gotten in his work and the result will be a bargain matinee.

The threatening weather undoubtedly kept many away from the field of battle but there was a good crowd present at that, when it should have been time to call the game. The down pour started gradually at about 3:15 o'clock, and the sky became overcast with clouds making it impossible to see the ball in action. It was not long before the storm broke loose in all its wrath, driving everybody to shelter. The rain was accompanied by claps of thunder and vivid lightning flashes. The infield in a short time resembled a miniature lake, and on account of the wet ground it looked as if the probability was for a double header. Tomorrow would be in the dim perspective. Fortunately it did not last long and the sun coming out this morning, has put the diamond in excellent shape.

Akron 4, Mansfield 1.
Mansfield, July 23.—Two passed balls and one hit by Edfeldt gave Akron three runs yesterday. Mansfield struck a batting rally in the ninth, but with one run in, one out and two men on bases a sensational catch by East and an assist for a double play retired Mansfield. Score:

Mansfield 0 0 0 0 0 0 0 1 1 6 0
Akron 0 0 2 0 0 1 0 1 0 4 7 0
Batteries: Edfeldt and Locke; Breckenridge and Lalonde; umpire: Latham.

Youngstown 1, Marion 0.
Marion, July 23.—The Champs defeated the Limeburners yesterday in an exciting 10-inning game, 1 to 0. For nine frames it was a pretty contest. Youngstown then scored on an error, a stolen base and a single. Blough, who pitched his first game for Marion, kept his hits well scattered. Schettler was in fine form. Score:

Youngstown 0 0 0 0 0 0 0 1 1 8 0
Marion 0 0 0 0 0 0 0 0 0 4 1
Batteries: Blough and Smith; Schettler and Ostlick; umpire: List; attendance: 390.

HOMER MOCK WILL CONTINUE TO TWIRL FOR SHARON TEAM

A dispatch sent out from Cleveland Monday stated that Homer Mock, the big pitcher of the Sharon team, would start in as an arbitrator for President Morton today.

Mock came to this city with the Sharon team and left for home, Sunday evening. Manager Van Paterson was seen at the Hotel Seiler Tuesday morning and stated that there was nothing in the story as the big boy would still continue to pitch for the Sharon "Medicine Men."

PICARDY'S SHEEP DOGS THE FIRST IN THE BRAVE ROLE OF THE POLICE DOG.

Paris, July 23.—A competition of police dogs, just held at Roubaix, France, has again attracted interest to the question of canine aid against

malefactors. The competitions have shown that France possesses an excellent race of police dogs in the Picardy sheep dog.

Up to the present the Belgians, who in training police dogs lead the way in Europe, have made use, for this purpose, of the Groenendaale sheep dog, a long haired animal, black, and a magnificent jumper.

An interesting side show during the competition was an exhibition of dogs trained and owned by French customs officers and used to track and kill smugglers' animals.

GOLD AND SILVER NEAR RUSHVILLE

SECRET REVEALED TO ATTORNEY J. H. FULTZ BY MAN OF INDIAN DESCENT.

Box of Ore Shipped Away for Analysis and Now There is Talk of Forming Company.

Thornville, O., (Beech Woods), July 23.—The locality just south of here is on the boom. Gold and silver have been found in large quantities

near the ancient village of Rushville. The great secret was divulged by a man of Indian descent to Attorney J. H. Fultz of Rushville. For years past it has been believed that this citizen living not far from the village, and in whose veins flows a strain of Indian blood, held a secret of great value, but what that secret was none could find out, and any attempt in questioning him was repulsed. But as the years rolled on and this Indian blooded citizen saw reverses of fortune come to him, until his substance was all gone and found himself financially embarrassed, he decided to divulge the secret which had been handed down to him through all the generations since the marriage of the beautiful Indian lass to the stalwart "Old Virginian." With this secret as

his only resource by which he might retrieve his financial losses, and with the hope of gaining something to keep the wolf from the door in his declining years, he came and placed the matter in Attorney J. H. Fultz's hands. Proof was produced and by the assistance of the attorney a large box containing the gold and silver ore was secured. The whole matter seems too good to be true. But even further investigation has developed the fact that the ore exists there in vast quantities. A box of the ore has been shipped to the U. S. mint at Philadelphia and as soon as a favorable report is received a company will be organized and the mine will be developed. By special request the name of the party exposing the secret is withheld from the public.

It's local testimony and can be investigated.

Amos Frey, shoemaker, at 307 East Main street, and living at 23 Bolen street, Newark, O., says:

"I made a statement in 1896 recommending Doan's Kidney Pills, and the eight years which have passed have only strengthened my confidence in that remedy. It gives me pleasure in 1904 to confirm what I said in 1896, for my cure was so complete that I have never had any return of the trouble."

The statement made by Mr. Frey in 1896 was as follows: "For several years I was never free from pain—a constant dragging aching in the kidneys. It was dull and dead so that I had to get up and move about if I sat for any length of time, my back would get so tired and ache so hard that it was really agonizing. I took several kidney medicines, but I got no benefit until I happened to learn of Doan's Kidney Pills and got a box at Crayton's drug store. They did all that they promised for they completely removed the miserable pain from my back."

BAD ACCIDENT TO AUTOMOBILE

Woman's Auto in Glidden Tour Goes Into a Fence After a Tire Had Burst.

Baltimore, July 23.—Eighteen perfect people remained when the Glidden tourists passed the Hotel Belvedere last evening. H. C. Tibbittson's car, No. 28, lost a clean record during the day. One accident marred the trip when the car, driven by Mrs. Andrew Cuneo, had a front tire and went into a fence, breaking the two front springs and the front axle. No one in the car was injured, however. A plan is being discussed for the

other members of the party to present Mrs. Cuneo with a cup in commemoration of the fact that she is the only woman driver of a car on the trip.

A PLEA FOR PARKS

Ed. Advocate.—I was much pleased to read Judge Brister's plea for parks and playgrounds in your issue of last Friday, as well as a plea of the same tenor from Mrs. Swan a few weeks since.

It seems to me that this need is so plain that all argument or exhortation is superfluous. I take it that all good citizens would like to see our children provided with parks and playgrounds, but who is going to take the initiative in the work of securing them?

While I have shared in the satisfaction which comes from the rapid growth of our city the few past years, it has greatly pained me to see so many, many, houses constructed with no reference to play room for the children. Perhaps there is no remedy for this; but surely the securing of parks and playgrounds for our boys and girls ought not to be considered an impossibility—if the people will only become interested in it.

Meantime, it seems to me that the school yards, although most of them are painfully small, might be opened and utilized for this purpose.

M. R. SCOTT, Ed. Juvenile.

Carp and pike are the longest lived among the fish. They have been known to be nearly 200 years old. The railroad rolling stock of England would form a train 1,800 miles long, with 22,000 locomotives.

RICHARD MOORE BISHOP—1878-1880.

Richard Moore Bishop, governor of Ohio from 1878 to 1880, rose to that high office in the quiet fulfillment of duties both private and public that came nearest to him. He was born in Kentucky in 1812, there entering mercantile business which he afterward moved to Cincinnati, being senior member of R. M. Bishop & Co. He was largely instrumental in securing the right of way through Kentucky and Tennessee for the great southern outlet from Cincinnati, the Cincinnati Southern railroad. He was member of the city council of Cincinnati, holding the position of president of that body, becoming mayor in 1859. He became governor of Ohio on the Democratic ticket in 1877 by a large plurality. He died at Jacksonville, Fla., March 2, 1880.

While playing with several companions, the lad was run down by an automobile and received terrible injuries that resulted in his death four hours later. He was nine years old. Mrs. T. H. Dufield wife of Dr. Dufield, who died at a Columbus hospital, was buried here today.

MRS. J. RINEHART INSTANTLY KILLED BY LIGHTNING

ST. LOUISVILLE WOMAN TAKING
CLOTHING FROM A WIRE
CLOTHES LINE.

Wife of Prominent Farmer and Sister
of Benj. Shanks of Newark Met
Tragic Death.

A sad and deplorable affair in which a wife and mother lost her life by lightning occurred four miles north-east of St. Louisville during the storm on Monday afternoon about 3 o'clock. The unfortunate woman was Mrs. Nettie Rinehart, wife of John Rinehart, one of the prominent farmers of Newton township.

Mrs. Rinehart had gone into the yard and removed some washing from the wire clothes line and had then penned up some chickens. Rising from over the coop she was suddenly seen to throw up her hands and fall to the ground. A couple of the children seeing their mother fall, rushed to her aid, as the house is close by, but life was extinct. A wire clothes line was directly above the coop and it is thought that the unfortunate woman's head came in contact with it as she raised up from the coop.

Mrs. Rinehart was born August 11, 1861, and leaves besides her husband, seven children, Alva, residing in Colorado, James of this city, and a married daughter residing in Mexico, and John, Alta, Sadie and Artie at home. She is also survived by a widowed mother, Mrs. Anna Shanks of St. Louisville. Mrs. Rinehart was a sister of Mr. Benjamin Shanks, superintendent of the Newark Telephone company, and a niece of Mr. E. S. Starr of Elmwood avenue.

The deceased woman was a member of the Lutheran church and the funeral will be held some time Thursday from her late home, arrangements having not yet been perfected as they are waiting word from the absent son in Colorado.

A message from St. Louisville giving further details of the sad accident says that both the husband and daughter were witnesses. No damage to property was done by the lightning, no other person was shocked and Mrs. Rinehart's body was not marked by the lightning. Besides her mother, Mrs. John Shanks, Mrs. Rinehart leaves eight children, three sisters, Mrs. Fannie Bullock of St. Louisville, Mrs. Orrie Jewell of Utica, Mrs. John Knudson of Columbus, and one brother Ben Shanks of Newark. The funeral takes place Thursday at St. Louisville with burial in the Evans cemetery. Mrs. Rinehart formerly lived at Utica where she kept a hotel.

Carried Plans of Czar's Palace.
St. Petersburg, July 23.—The police arrested on the street a student and a young woman whom they have had long suspected of belonging to the military organization of the Social Revolutionists. On searching them, the police found plans of both the Tsarskoe-Selo and Peterhof palaces, maps of St. Peter and St. Paul fortress and the troops in the St. Petersburg barracks. The police believe that they have nipped in the bud another attempt on the life of the emperor.

Heat V. cums.
Valparaiso, Ind., July 23.—Two deaths from the heat were recorded here. Lawrence Petrovich, a railroad employe, was overcome while at work and died later at a hospital. Mrs. George Wolf, becoming overheated, dropped dead at her home.

PENALTY CLAUSE HELD INVALID

United States District Court on State
Railroad Rate Bill.

IMPORTANT LEGAL DECISION

Penalties Prescribed by North Carolina Statute For Charging More Than the Statutory Rate Declared So Enormous They Would Bankrupt the Road—Federal Official Appears.

Asheville, N. C., July 23.—Judge Pritchard in the United States court discharged Ticket Agents Wood and Wilson of the Southern railway on habeas corpus proceedings, and declared the penalty clause of the new state rate bill unconstitutional. Judge Pritchard said: "This court is confronted with open and avowed opposition by the powers of the state. The penalties prescribed by the state statute for charging more than the statutory rates are so enormous that if permitted to be enforced they would practically bankrupt the railroad in an exceedingly brief time, and before a final hearing could be had in the case, and thus place the complainant in a position where it would be powerless to assert the rights guaranteed to it by the constitution of the United States." The case will go to the supreme court.

Judge Pritchard said: "If the criminal prosecutions against the agents, conductors and employes are permitted to continue, the managers of the railroads can not successfully operate their trains, carry the mails, or continue their usefulness in interstate commerce. The state constitution as well as the statutory law afford ample protection to every person deprived of his liberty without due process of law. It is remarkable that any one representing the state should oppose the granting of the writ of habeas corpus."

Judge Pritchard said the question of the sovereignty of the state is not involved, the real question being "whether this court shall be denied full jurisdiction of the subject at law."

Edward T. Sanford, assistant attorney of the department of justice, has arrived, and it is understood he comes as an emissary of President Roosevelt to promote peace between federal and state courts and to see that there shall be an appeal from both the state and United States courts. While Mr. Sanford declined to talk for publication, he did not deny that he came on a mission of peace. He brings the assurance that if the cases are allowed to proceed in the orderly course to the supreme court of the United States, the department of justice will request that court to assign the cases to an early hearing.

LOSS OF LIFE

(Continued from page 1.)
her entire deck load of lumber was missing and she had a big list. Her whole bow was missing clear back to the forefoot, which would indicate that she ran at least ten feet into the side of the sunken steamer. The Elder was towing her with an anchor chain. Her whole mainmast was gone. She was being towed back to Eureka.

A lifeboat was picked up in Shelter Cove containing 16 people, three women and 13 passengers, of whom two were dead. F. O. Leurs of Pasadena was in the boat with his wife, who died from exposure. He lost his boy of nine years and his girl of 12 years. Leurs got his wife and children on the upper dock. A breaker washed off the cabin and knocked them into the sea. He then got his family on a piece of wreckage and floated for two hours. He does not know when his children were lost. The dead man in the boat is unknown. A later message from Shelter cove says three more lifeboats have been found, one containing 18 people and one containing 15. The number in the third is not reported. Sixteen of the names given are not found on the steamship company's list. Adding to the 159 accredited passengers the 59 of the 60 members of the Columbia's crew gives a total of 249 lives jeopardized in the midnight collision.

Portsmouth Party Lost.
Portsmouth, O., July 23.—Besides Edward E. Butler, his wife and children, Gertrude, 13, and Dorothy, 11, who were drowned on the steamer Columbia, others from here are thought to have perished. They are Eli Rockwell and wife and Charles Martindale and wife and baby. The women were sisters of Mrs. Butler. Butler, who was head clerk in the Portsmouth postoffice and a former newspaper man, was on an extended vacation trip with his family.

Ohio Survivors.
Eureka, Cal., July 23.—Among the survivors brought here are Alma Osterboog and Emma Griese, Cleveland, O., and Florence Thompson, Youngstown, O.

Was Kentucky Belle.
Franklin, Ky., July 23.—Miss Eva Booker, who was lost in the steamer collision, left home about three weeks ago with her uncle, Joseph Waddy of St. Louis, on a pleasure trip. It was their purpose to visit many of the southern cities and before returning to their home to go to California.

MR. WEISGERBER GETS APPOINTMENT TO FINE POSITION

The many friends of Mr. E. L. Weisgerber will be pleased to hear that he has recently been elected vice president of the Standard Railway Equipment company and the Allegheny Malleable Foundry, both of New Kensington, Pa., a thriving town about 18 miles north of Pittsburgh.

Mr. Weisgerber heretofore has been acting as salesman for this large corporation, and was very successful while on the road, but on account of his wide experience with all classes of steel and iron work, it was deemed best for the interest of the business to place Mr. Weisgerber in an executive position. He was for years the master mechanic of the B. & O. railroad with headquarters at Newark, and in the work pertaining to his department, gathered a large store of experience and information in regard to the needs of railroads for car equipment, and of which his firm has a specialty of manufacturing.

Mr. Weisgerber is also a member of the Mechanics' Association of the United States, holds an important office in association and is rated as one of the most practical iron and machinery men in the country.

He will still make his home in Newark, and with his lighter but more important duties, can get back with his friends here about every two weeks.

Mr. Weisgerber continues to take

his usual great interest in Newark, and her welfare, and has the Daily Advocate sent to his Pennsylvania address, as he must know what is going on in our growing city.
